OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE  
STATE OF NEVADA HERETOFORE APPROPRIATED**

Date of filing in State Engineer's Office MAR 31 1992

Returned to applicant for correction \_\_\_\_\_

Corrected application filed \_\_\_\_\_ Map filed MAR 31 1992The applicant Episcopal Diocese of Nevada (Also see Item 15.)Box 6357 of Reno  
Street and No. or P.O. Box No. City or TownNevada 89513 hereby make \_\_\_\_\_ application for permission to change the  
State and Zip Code No.Point of Diversion, Manner of Use and Place of Use. of a portion  
Point of diversion, manner of use, and/or place of useof water heretofore appropriated under Permit No. 6500, Certificate Record No. 2117  
Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree andIdentify right in Decree.1. The source of water is Logan Shoals Creek No. 1, also known as North Logan House Creek  
Name of stream, lake, underground spring or other source.2. The amount of water to be changed .02344 CES, 9.9 acre feet per year.  
Second feet, acre feet. One second foot equals 448.83 gallons per minute.3. The water to be used for Quasi-Municipal  
Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.4. The water heretofore permitted for Domestic, Irrigation and Fire Protection  
Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.5. The water is to be diverted at the following point Within Lot 4 (SW $\frac{1}{4}$  SE $\frac{1}{4}$ ) of Section 15, T.14N.,  
Describe as being within a 40-acre subdivision of public survey and by course and  
R.18E., M.D.M. from which the southeast corner of said Section 15 bears S 58°  
distance to a section corner. If on unsurveyed land, it should be stated.28° 12' E a distance of 1871.46 feet. (See attachment.)6. The existing permitted point of diversion is located within SE $\frac{1}{4}$  SE $\frac{1}{4}$  of Section 15, T.14N., R.18E.,  
If point of diversion is not changed, do not answer.  
M.D.M. at a point from which the southeast corner of said Section 15 bears S  
88° 56' E a distance of 790 feet7. Proposed place of use Portion of N $\frac{1}{2}$  of Lot 4, Section 15, T.14N., R.18E., M.D.M.,  
Describe by legal subdivisions. If for irrigation state number of acres to be irrigated.  
approximately 8.70 acres. See attachment.8. Existing place of use Portion of the N $\frac{1}{2}$  N $\frac{1}{2}$  N $\frac{1}{2}$  of Lot 4, T.14N., R.18E., M.D.M.  
Describe by legal subdivisions. If permit is for irrigation, state number of acres irrigated. If changing place of use and/or  
approximately 2.8 acres.  
manner of use of irrigation permit, describe acreage to be removed from irrigation.9. Use will be from January 1 to December 31 of each year.  
Month and Day Month and Day10. Use was permitted from April 1 to October 31 of each year.  
Month and Day Month and Day11. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and  
specifications of your diversion or storage works.) infiltration well, submersible pump and  
State manner in which water is to be diverted, i.e. diversion structure.  
motor, water distribution lines.  
ditches, pipes and flumes, or drilled well, etc.12. Estimated cost of works existing existing. See attached copy of Well Driller's13. Estimated time required to construct works Report, Log No. 14276.

14. Estimated time required to complete the application of water to beneficial use. five years

15. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:

See attachment for information regarding ownership of Certificate 2117, description of proposed diversion, description of place of use, description of proposed use and description of supporting analyses of North Logan House Creek water rights and watershed yield.

**APPROVAL**  
**OF STATE ENGINEER**

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, manner of use and place of use of a portion of the waters of Lake Tahoe heretofore granted under Permit 6500 Certificate 2117 is issued subject to the terms and conditions imposed in said Permit 6500 Certificate 2117 and with the understanding that no other rights at the source shall be affected by the change proposed herein. A totalizing meter must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to a beneficial use. This permit is subject to the final allocation of the State of Nevada under the California-Nevada Interstate Compact Commission. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit is issued with the understanding that the permanent water level measuring point (referenced to mean sea level elevation) must be established and marked on the infiltration well. The location of the well and measuring point referenced to mean sea level shall be submitted with the Proof of Completion of Work.

The total combined duty of water under Permits 57366 and 57367 shall not exceed 23.1 acre-feet annually.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.02344 cubic feet per second, but not to exceed 9.9 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before March 17, 1999

Proof of completion of work shall be filed before April 17, 1999

Application of water to beneficial use shall be made on or before March 17, 2001

Proof of the application of water to beneficial use shall be filed on or before April 17, 2001

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed \_\_\_\_\_  
Proof of beneficial use filed \_\_\_\_\_

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.  
State Engineer of Nevada, have hereunto set my hand and the seal of my  
office, this 17th day of March  
A.D. 19 99  
[Signature]  
State Engineer

Item 15. Remarks.

Ownership of Certificates No. 2116 and 2117:

On October 18, 1990 requests for assignment of ownership of Permit No. 6500; Certificates No. 2116, 2117, 2084, 2085 and Permit No. 12111, Certificate No. 3379, to the Episcopal Diocese of Nevada were submitted to the State of Nevada, Department of Conservation and Natural Resources. The requests for assignment were supported by abstracts of title and copies of documentation of land title transfers. Action on the requested assignments of ownership is still pending as of March 1992.

Proposed Use:

Water will be used for quasi-municipal purposes to support operation of the Episcopal Church Camp known as Camp Galilee and St. John's Episcopal Church. The Camp Galilee property contains dormitories, camp staff residential facilities, a dining hall for use of camp occupants, a multi-purpose building, a caretaker's residence, the Bishop's residence, St. John's Church and other ancillary buildings and structures. Camp facilities are capable of accommodating approximately 100 persons, including staff personnel. The camp is used intensively during the summer months and is used throughout the remainder of the year for meetings and conferences. St. John's Church is used for Sunday religious services and for other religious services and meetings.

North Logan House Creek, water rights and watershed yield:

This application is supported by analyses of existing water rights originating from North Logan House Creek and the capabilities of the North Logan House Creek watershed to provide a consistent water supply to satisfy the demands of existing water rights. The analyses of water rights and watershed yield, conclusions and supporting documentation are contained in a report prepared by Milton L. Sharp, Professional Engineer and Water Right Surveyor.

## ATTACHMENT

## Item 5. Point of Diversion.

The proposed point of diversion is an infiltration well located in alluvial deposits on the shoreline of Lake Tahoe so that water will be withdrawn from Lake Tahoe through the infiltration well.

## Item 7. Description of Place of Use.

A portion of Lot 4 of Section 15, T.14N., R.18E., M.D.M. in Douglas County, Nevada, more specifically described as follows:

Beginning at a point on the north line of said Lot 4, said point being also on the west line of the right-of-way for U.S. Highway 50 and from said point the southeast corner of said Section 15 bears S 48° 14' 33" E a distance of 1981.43 feet; the TRUE POINT OF BEGINNING; thence along the west line of the right-of-way for U.S. Highway 50 the following two courses:

S 6° 11' 30" E a distance of 324.84 feet,

S 13° 00' 19" E a distance of 349.76 feet;

thence N 89° 41' 00" W a distance of 460.22 feet to a point on the meander line of Lake Tahoe; thence along said meander line of Lake Tahoe the following two courses:

N 24° 00' 00" W a distance of 394.62 feet,

N 40° 00' 00" W a distance of 397.38 feet to a point on the north line of said Lot 4; thence along said north line of Lot 4, S 89° 43' 38" E a distance of 762.87 feet to the TRUE POINT OF BEGINNING; an area of 8.70 acres more or less.
